

# The Wonder of It All: Your Unique Place Amongst the Sun, Moon, Planets and Stars of the Universe

From our home here on Earth, past the Sun, Moon and planets, this is a journey out to the stars and beyond. A journey of discovery that shows us the beauty and wonder of the cosmos and our special and unique place within it. Written by an amateur astronomer with a life-long love of the stars, The Wonder of It All will open your child's eyes to the universe and includes notes for parents to help develop an interest in astronomy. Praise for other books by Richard J. Bartlett: This is my third book from Mr. Bartlett and this one is as good as the others. I recommend it to all the beginners in my astronomy club. By Darren C. Bly on August 15, 2015 reviewing 2016: The Night Sky Sights Lots of wonderful information. A great reference guide and easy to follow. Every star gazer should have one with them - By Janine on November 18, 2015 reviewing 2015 An Astronomical Year This is a superb book, well laid out and easy to follow even if you are a complete novice or keen astronomer. by Mr Fletcher on October 26, 2014 reviewing The Astronomical Almanac, 2015-2019
