

Hooked: A Thriller About Love and Other Addictions

Nat Idle, a San Francisco writer with a medical degree, narrowly survives an explosion in an Internet cafe after a stranger hands him a note warning him to exit immediately. The handwriting on the note belongs to his deceased girlfriend, a Silicon Valley venture capitalist whom he has obsessively been mourning. So begins HOOKED, a pop thriller for the Internet Age, written with the force of an adrenaline rush and the pace of an intimate email dispatch you can't stop reading. Each chapter of this novel will keep readers hooked as Nat Idle searches for the love of his life in the midst of manipulation and conspiracy.
