

## King Solomons Mines (Illustrated)

King Solomons Mines was regarded as one of the greatest works of fiction when it was first published. It was the original lost world novel that spawned not only dozens of copies (including Indiana Jones), but even created a whole new genre. Hollywood has made several movies based on H. Rider Haggards masterpiece. Time has done nothing to diminish the quality of this story - modern readers can jump right in and be absorbed in Haggards world. King Solomons Mines is a fantastic addition to any adventure library.
