

Spy for the Spiers: A Spy Thriller (Meet Abby Banks) (Volume 3)

An assassin out for revenge. A hidden tomb. An unlikely ally. When the agency is brought to its knees by a couple of masked maniacs, only Abby is left in a position to stop them from taking over completely. If she doesn't step in to stop Flash and Bang, the agency trying to kill her will be wiped off the planet. The only catch is, if the agency dies, so will her father. *Spy for the Spiers* is the third book in The Meet Abby Banks spy thriller series. Readers who enjoyed Sara Shepards Lying Game series, Ally Carters Gallagher Girls series, or Robert Muchamores Cherub series will likely enjoy this young adult spy adventure. *Book 1: May Contain

Spies (ASIN: B00UOEUHNC) is on sale for only \$2.99! **Book 2: The Spy Within (ASIN: B00YIG2QTU) is on sale for only \$3.99! *Interview with the Author Q - So, what makes the Meet Abby Banks series special? A - The series is really a mix of everything I love all thrown together in a blender. At its core you'll find an action adventure thriller after it has jumped the shark on a motorcycle with Michael Bay explosions in the background. There's also a touch of romance with a guy that will make your pulse quicken as well as a wild ride full of twists and turns you'll never see coming. The Meet Abby Banks books are a great mix of genres, set in a slightly science fiction world full of conspiracies to keep things interesting. Q - Do I have to read these books in order? A - Because the books follow Abby as she grows stronger and the conspiracies grow more complex, I recommend readers start with *May Contain Spies* before moving onto *The Spy Within*. The sequence is: - *May Contain Spies* - *The Spy Within* - *Spy for the Spiers* Q - So, why should readers give these books a try? A - Because the Meet Abby Banks series takes off from the start and never lets up, even for a second. They will take readers on an emotional and action-packed roller coaster that will leave

their heart pounding and have them craving more! If you enjoy books paced in overdrive and a plot with surprises all the way until the last page, you'll enjoy this spy thriller series. Thanks for reading!
