

The Observer

Science Fiction, paranormal suspense and wartime intrigue meet in this pacy story of a simple man with a unforeseen destiny. Albert Fox is a demoralised young medic fighting in the heart of what was to be known as the Battle of the Bulge. Isolated from their command, Alberts squad encounter hostile German forces amongst increasingly bizarre conditions and are forced to take refuge in a ram-shackled cottage whose custodian is a seemingly eccentric and mute old man. Albert is forced to make heart wrenching decisions which will not only affect the lives of his own friends but also the German soldiers with whom he encounters. Trapped within the environs of the forest, Albert is forced to accept that as strange events and unexplained phenomena begin to reveal the true nature of Alberts universal importance, it is his destiny to determine the future of Mankind.
