

Diary Of A Kudzu Salesman: Survival And Recovery After The Electrical Grid Collapse (Prepper Reconstruction Book 2)

Book two the Prepper Reconstruction , the Prepper Trilogy book series and saga is winding down as age and government disaster recovery efforts finally arrive to help the survivors. Southern Prepper Fiction With a bit of history thrown in. The characters from the classic Prepper Trilogy have moved from their survival retreat on the lake and have taken up city living in one of the FEMA reconstruction towns. The government is attempting to jump start the economy once more after a solar geomagnetic storm ,EMP took down the electrical grid and the economy with it ten long years ago. They survived this long but barely. New dangers and challenges await the surviving Our End of the Lake Clan as they move to a Federal Recovery and Transport area. Politics and a religious cult leader who is a decedent of a Kudzu salesman threaten to upset the survivors plans to restart their lives as the stresses of rejoining civilization and bureaucratic red tape mount. This book contains several recipes and survival uses for Kudzu that help the community contend with the calamity and actually profit from it. Perhaps no other part of the natural environment is more closely identified with the South than this invasive and fast growing Kudzu vine and the author uses it as a example or evidence of everything that is wrong with big government.
